

NORMACONNECT® – Pipe Connections

Product Range Summary

	STC	QRC	SVS
Single closure 3 profile segments			
Double closure 2 profile segments			

Materials

NORMACONNECT® V profile clamps are available in two material specifications:

Material Reference	Closure Types			Closure components	Profile segments / Coverband
	STC	QRC	SVS		
W2	•		•	Mild steel, zinc plated	Stainless steel
W4	•	•	•	Stainless steel

Profile Types

This page shows 12 profiles of the NORMACONNECT® V product range.

The internal profile diameter can be chosen in millimetre increments. All profiles are available up to $\varnothing 999$ mm. Please refer to the individual profile sections below for the minimum diameter allowed.

Profile clamps are available in 20 mm or 25 mm coverband width. The individual profile sections below indicate which coverband width is suitable for each profile.

For special applications, please ask for further available profile types.

Flange Design Suggestions

Typical flanges with required dimensions and tolerances suitable for use with our profiles are shown below. The use of a gasket or sealing can improve the leak rate of the joint.

Order Information

1. Select your profile clamp using the tables.	2. Take down the appropriate 8 digit order code.	3. Calculate the required internal diameter: Outer flange diameter + 3 mm gap	4. Add the calculated diameter to the order code.
Example:	Order Code:	Internal Profile Diameter:	Completed Order Code:
